Developed for you  
by sauna  
*Masters*

High quality and handmade wellness and sauna clothing from South Tyrol.

With our new "Steinböckl" collection, we dare to set new accents in the wellness, SPA and sauna area, in line with the trend of the times.

In order not to have to use a simple bath towel as a substitute for a robe, we create sarongs for the ladies and kilts for the men. We create our own collections to meet different preferences, taste and fashion.

The articles differ from others by revised, refined and sophisticated cuts, lovingly selected trims, buttons and designs. On principle, the products are light and take up little space.

These cotton garments are also suitable for use in sauna cabins in areas where sauna is not textile-free.

Discover the highest quality from the Sarntal.

Ondin light terry is characterized by the two different sides - smooth inside and terry outside. In addition, due to the very short loops, it does not pull threads so quickly.

It absorbs water well, but also dries quickly again and is very durable. Therefore, these garments are especially suitable to wear as work-wear in and after the sauna for infusion masters and mistresses.

Working ethically and sustainably is our motto.
