Dear business partners,

We are pleased to present you the new FINNSA catalog. Innovative products and best quality are a matter of course for us. The catalog is divided into 11 different chapters so that you can find items quickly and easily.

FINNSA - the unique mail order wholesaler - with the largest selected assortment and the best professional advice. Your competent partner and purchasing consultant for sauna and wellness accessories. Honest, reliable and customer-oriented. What started in 1967 has developed steadily and evolved into a brand around sauna, wellness, spa, fitness and health.

FINNSA is associated with expertise for sauna - and we are proud of it.

Thank you for being our loyal customers!

We have many items that are produced in Finland, the country of origin of the sauna. Most of our items are produced in the EU, strengthening our European economy. Even if the price of raw materials increases, our quality remains the same. We guarantee this with our name.

We usually deliver within 1-3 business days. Only a few items need to be ordered, which may cause delivery time. We always strive to process your order quickly, but also carefully. Your satisfaction is our main goal.

Your net purchase prices are shown in the catalog. All prices are subject to change. In the event of price increases by upstream suppliers or of raw materials, we reserve the right to increase prices appropriately. In this case we will inform you before a delivery.

Feel free to browse our new catalog.

Our competent team is ready to support you in every way.

Your FINNSA GmbH
Uwe Helm, Managing Director

These offers are only valid for industry, trade, craft and commerce. The buyer confirms with the order the use of the goods in the context of his commercial activity.

Euro prices plus VAT, ex warehouse.

The World of essential oils

Special Issue Download
This QR code will take you directly to the special issue in PDF format.
To download, browse and discover. Immerse yourself in the world of RBM essential oils.

By now, essential oils are also indispensable in the sauna. That is why we are pleased to present our cooperation with RBM Natur Sauna & Wellness GbR from Homberg Ohm in Hesse.

In addition to essential oils and infusion accessories, RBM also offers training courses together with the German Sauna Academy. There you can get certified e.g. as sauna master or specialist for essential oils.

Essential oils in professional quality

RBM essential oils are very popular at sauna championships and are especially appreciated by professionals.

In our cooperation with RBM we offer you about 100 essential oils in 100 ml and 250 ml and the SAK Sauna Aroma Ball© developed by RBM in a separate special issue.

For those who like to experiment, we also offer two assortment cases with 30 × 15 ml or 72 × 15 ml of the most popular essential oils.

Other container sizes, such as 20 ml and 1000 ml, are also available from us on request.

Discover the variety of essential oils in professional quality and become a master of fragrances.

The prices for essential oils are subject to constant fluctuations and may need to be adjusted. You will generally receive an order confirmation in advance.

Quality

has a name

FINNSA is one of the best addresses for high-quality sauna fragrances since 1967. The fragrances leave no residue on your sauna stones, evaporate completely and pleasantly evenly and are also very economical in use.

Our raw materials used are subject to Regulation (EC) No. 1907/2006 (REACH). At our manufacturer, the raw materials additionally undergo a quality control before they are processed. Furthermore, our fragrance concentrates are subject to the safety standards of the IFRA (INTERNATIONAL FRAGRANCE ASSOCIATION).

Our fragrance is made vegan from high quality oils and fragrance additives (without emulsifiers). FINNSA sauna and aroma fragrance concentrates use isopropyl alcohol as a carrier and our bio-based sauna fragrance concentrates use bio ethanol.

Essential oils are a major component of all our fragrances suitable for sauna, as far as the essential oil can be obtained in nature. Due to the high demand for other scents, we also offer fragrances with fragrance compositions.

What does our term fragrance composition mean?

Fragrance composition is another name for perfume oils. These are not "artificial" per se. A mix of orange and lavender oil, for example, is also called perfume oil because this mixture does not occur in nature. Perfume oils are subject to very strict controls (IFRA) and are partly better tested than essential oils.

Our fragrance concentrates are mostly refined with perfume oils for sensory reasons, among others. They are precisely adapted, refined and developed for use in the sauna.

Fragrance compositions or perfume oils may have the following components:

Essential components (from 0.1 % to 99.9 %)

occur in nature and are obtained from nature

Nature identical components

occur in nature, but are recomposed

Synthetic components

do not exist in nature and are produced synthetically

Info

When using unsuitable fragrances, unpleasant odors may occur, which can be neutralized only by changing the stone.

Our fragrances are highly concentrated.
The respective dosage and application according to the instructions must be observed!

**Which FINNSA fragrance for which bath form?
Selection and dosage recommendation:**

	Finnish Sauna	Hot Air Bath Herbal Bath Humid Bath	Steam Bath 100% humidity	suitable for autom. infusion system
Sauna Fragrance, Creative Fragrance, Event Fragrance, Exclusive Fragrance & Organic Based Sauna Fragrance	approx. 5-10 ml per liter of water	approx. 5-10 ml per liter of water	————	on request
Aroma Fragrance Concentrate	approx. 10-20 ml per liter of water	approx. 10-20 ml per liter of water	The required quantity is regulated by time intervals and fed to the cabin (pump).	on request
Sauna Fragrance Oil Concentrate	approx. 2-5 ml per liter of water	approx. 2-5 ml per liter of water	————	on request

What is sauna fragrance on an organic basis?

Our sauna fragrance concentrate on an organic basis contains **organic essential oils** and **bio ethanol**.

However, the fragrance itself cannot be called organic because there is currently no organic certification for sauna fragrance.

Discover the alternative to our sauna fragrance.

essential oils from *Organic* cultivation

Organic Essential Oils by FINNSA

Essential oils are highly concentrated and have a different intensity by nature. This can be perceived differently depending on the person.

- natural essential oils
- from organic cultivation
- childproof closure

Tip: Form a ball of crushed ice in the sauna and put a few drops of the essential oil on it.

Infusion balls can be found on pages 60 - 61.
Pipettes for dosing can be found on page 24.

Storage: Keep well closed, dark, at room temperature.

Use only diluted!

Organic Eucalyptus
Eucalyptus globulus (China)

Scent profile: fresh

Herbs, Fruits & Potpourri

Turn your cabin into an oasis for the senses

Natural dried herbs, fruits and potpourris are the purest form to enjoy the flavors.

Please keep in mind that the perception of these natural products is weaker compared to essential oils.

TIP

For the sauna:
Hang in a bowl of water over the sauna heater.

Sauna Wedel Towel "Magic Towel" by Robert Heinevetter

The professional wedel towel for your sauna

By far the lightest and most stable wedel towel on the market. Due to its low weight, it relieves the entire support and movement apparatus. You achieve very strong air movements and best results with it.

The high density and stability give the towel very good flying properties. Thus, the Magic Towel is suitable for sauna novices as well as for the professional sauna master.

Fixed price in consultation with Robert Heinevetter.

Made in Switzerland.

100% cotton, 370 g/m² • washable at 60 °C, suitable f. tumble dryer

- ① approx. 100 × 75 cm, white Item-No. **114010**
- ② approx. 100 × 75 cm, anthracite Item-No. **114020**

Wedel

like the pros

Sauna Wedel Towel "Löyly"

Professional wedel towel in optimal size. Suitable for many wedel techniques. With all-round bead for optimum grip and weighting for best results. With orange decorative stitching.

100 % cotton 750 g/m² quality, weight approx. 720 g washable at 60 °C, suitable for tumble dryer.

- ③ approx. 95 × 95 cm Item-No. **7780**

Sauna Wedel Towel "Kuuma" with sewn-in pewter chain for weighting

as above, but with sewn-in, nonrusting pewter chain with 50 g/rm. With green decorative stitching.

100 % cotton 750 g/m² quality, weight approx. 880 g washable at 60 °C, suitable for tumble dryer.

- ④ approx. 95 × 95 cm Item-No. **7785**

Infusion Wedel Ring

Without the use of force and elaborate wedel techniques you can provide your sauna guests an intensive infusion. The beautifully embroidered terry cloth cover has an elastic band.

Material:

high-quality terry cloth, 340 g/m², white, 100 % cotton, embroidery in green, plywood wooden ring 20 × 10 mm.

Washable at 60 °C, suitable for tumble dryer.

①  ø 60 cm with cover Item-No. **1766-1**

Spare terry cloth cover with elastic band for wedel ring, Material as described above.

②  spare cover (without illustration) Item-No. **1766**

Alternatives

to the classic wedel towel

Offer your guests a high-quality infusion without much effort.

Infusion Wedel Sail

The strong towels with high quality embroidery are provided with a sewn pocket on the left and right. The wooden sticks supplied fit into these pockets (can be easily shortened if necessary).

The wooden sticks prevent the towel from collapsing and you get a strong air movement without much effort.

Material:

high-quality terry cloth, 400 g/m², 100 % cotton, with large embroidery, 2 × 14 mm beech roundwood stick

Washable at 60 °C, suitable for tumble dryer.

Professional wedel flags by FINNSA

simple, functional and well thought-out

The wedel flags developed by FINNSA bring high air movements and fun into the sauna.

Each set includes 2 wooden rods with a total of 2 fastening rings for the flag towel. The fastening rings are quickly exchanged with the enclosed Allen key and, thus, the flag towel quickly changed. This allows you to replace the flagpoles individually.

For the flag towels we use only the highest quality from the company Jokipiin in Finland. The high linen content in combination with cotton guarantees a robust flag towel.

Aqua Peeling Sugar

by FINNSA

FINNSA Aqua Peeling Sugar in 5 different scents

A small amount of our exfoliating sugar is sufficient for application before or during the sauna, in the shower or during a soothing bath. Your skin will become soft and tender through the application.

Rub a little sugar onto wet or sweaty skin. The sugar melts, the skin care substances penetrate the skin and dead skin cells are gently removed.

Cherry

Draw energy from the most vitamin-rich fruit in the world.

1	 40 g	Item-No. 9460
2	 225 g	Item-No. 9470
3	 10 kg (without illustration)	Item-No. 9480

Coconut-Vanilla

South Seas feeling. Let the sweet fragrance soothe you.

Gentle Aqua Peeling Salt

Dosing spoon on page 45.

FINNSA Aqua Peeling Salt in 5 different scents

Our Aqua Peeling Salts are specially developed for use on wet skin, e.g. during showers, saunas or in the hammam.

We use natural primal sea salt as the basis. High-quality minerals contained there nourish the skin. The salt promotes your blood circulation, makes it silky soft and radiant and opens the pores for the precious oils. These strengthen the skin's natural protective function and make it smooth and supple.

Aloe Vera

The extract of aloe vera provides the body with moisture.

1	50 g	Item-No. 9410
2	300 g	Item-No. 9420

Sauna Massage Salt in nature and the scents ice cold & prickly pear

These high-quality massage salts are made from pure sea salt. Dead skin cells are gently removed. The skin becomes pore-deep clean, well supplied with blood, supple and soft.

Before, during or after the sauna, but also in the shower, rub a small amount of salt vigorously onto wet or sweaty skin. The salt melts and the skin can absorb important minerals and trace elements. Wash the rest off well with water.

Please store in a cool and dark place. Not suitable for consumption. Do not use on open skin wounds!

Gemstones for Water Revitalisation

Use: Place stones in a glass jug to revitalise the water. Let the water stand for at least two hours. The taste can be positively influenced.

The stones can be left in the jug, but should be cleaned with warm water from time to time. You can add sodium bicarbonate to prevent possible coating.

Raw stones can have an activating effect and tumbled stones a calming effect.

Composition may vary!

Gemstone mix with 7 raw stones:

Our best Honey

Vitalis Sauna Honey Creams with a gentle peeling effect

Thanks to their composition, these sauna honey creams have unique skin-soothing, irritation-relieving and skin-relaxing properties. They intensively moisturise the skin while taking a sauna. Finely ground wild apricot kernels ensure the gentle peeling effect, while propolis and beeswax form a fine protective film on the skin.

- pure summer blossom honey from organically managed apiaries
- no preservatives
- with beeswax and propolis from organic beekeeping

Recommendation for use: Massage into wet skin in the warmth of the sauna or steam bath and allow to absorb. Rinse off afterwards.

Sauna Honey Cream Finnish

Enjoy the unique care effect of high-quality natural summer blossom honey.

Sauna Honey Cream Lavender

Natural essential oils - wild lavender and sweet orange - add harmonious balance to every application.

Sauna Honey Cream Wildrose

This cream has a calming and harmonising effect on the nerves. The Rosa Mosqueta seed oil pampers the skin and keeps it soft and supple.

Sauna Honey Cream Ice Fresh

This cream has unique cooling properties thanks to its composition. Natural essential oils make it fresh and clear the airways.

Sauna Creams

by FINNSA

Sauna Cream Olive Lemongrass with gentle peeling effect

Our sauna cream contains high-quality olive oil, almond oil and nourishing cocoa butter as well as gentle exfoliating bodies based on pure jojoba oil.

Dry and stressed skin is a thing of the past. Even sensitive skin benefits from the skin-smoothing and nourishing properties of our sauna cream Olive Lemongrass.

1  125 ml Item-No. 5021

2  5 l incl. pump (without illustration) Item-No. 5031

Sauna Ice Fluid moisturising, promotes blood circulation

The ice fluid gets its cooling and refreshing properties from menthol, which promotes blood circulation. Rich aloe vera provides intensive moisture.

Valuable essential oils from rosemary and camphor, among others, and the extract of horse chestnut promote good circulation. This effect is reinforced by juniper berry oil.

3  125 ml Item-No. 5022

4  5 l incl. pump (without illustration) Item-No. 5032

Sauna Cream White Chocolate with peeling effect, with embedded jojoba waxes

Fine cocoa, jojoba wax and other exquisite ingredients make the cream a delight during the sauna session. The skin becomes chocolate soft.

Embedded jojoba waxes provide a gentle exfoliating effect.

Pleasure

for body and soul

Sauna Pampering Cream

These rich, high-yield creams unfold their nourishing properties while taking a sauna. The active ingredients penetrate deep into the cells and provide them with moisture.

Application: Apply a thin layer of the cream to the skin before taking a sauna, let it work in the warmth and then rinse it off.

Apricot Peeling

Gentle peeling effect through grated apricot kernels. Conjures up delicate apricot skin that also smells like it: fruity, velvety, soft.

1 75 ml dispenser Item-No. 9490

REGENKELLE® by SAUNAGUT®

Due to the unique shower mouthpiece, the infusion water falls like rain onto the stones. This means that the amount of water can be dosed more evenly and distributed to the stones in a more targeted manner.

You need less fragrance and also protect your sauna heater, as less infusion water reaches the heating rods due to the better dosage.

Mouthpiece made of laser-welded stainless steel, handle made of oiled hardwood.

REGENKELLE® JUMBO, handle oak

 **1100 ml**  approx. 98 cm **Item-No. 6754**

② + 6 glasses Item-No. 5451

Each shelf is fixed 3-fold with countersunk Spax screws.

SAUNAGUT® Ice Infusion Ball The special form of infusion

The ice infusion ball is a mould with which balls can be formed from snow or fine crushed ice. These balls can be enriched with a sauna fragrance or ideally with essential oils.

The sphere has grip grooves for a better hold. A built-in spike presses a funnel into the ice balls for dosing with fragrance. The result is ice balls with a diameter of approx. 10.5 cm.

The finished ice balls are placed on the hot stones and melt very slowly. One ice ball is recommended per 20 m³ or 10 kW heating capacity of the stove.

③ ash wood Item-No. 6760

M E A S U R I N G

Info

It is difficult to give an exact running time for hourglasses because sand is a natural product. Tolerances of up to 2 min. are possible.

If several grains block, tap gently against the glass or turn the hourglass over briefly.

The glass of all hourglasses is glued in place with a heat-resistant special adhesive. reduced risk of breakage!

A light film may form on the inside of the glass cylinder. This is a natural phenomenon due to static charge.

Sauna Hourglass Special, 15 min.

Made of solid beech wood.

Info

Why are there no more electric sauna clocks?

To withstand the special conditions in the sauna, a movement must meet certain requirements. Only one manufacturer was able to meet these requirements recently, but now cannot produce movements for sauna clocks themselves.

The only alternative left at the moment is the slave clock.

What is a slave movement?

A clock with slave movement is controlled by the minute pulse of a master clock located outside the sauna cabin. Thus, the actual movement is not exposed to the extreme conditions of the sauna.

Peweta Sauna Clock with slave movement

Heat-resistant wall clock with slave movement explicitly suitable for use in sauna cabins up to approx. 95 °C.

With heat-resistant mineral glass. White lacquered, clearly readable metal clock face. Ayou wood case.

Protection class IP 40 (EN 60 529). Ø 22 cm. Minute pulse 24 V.

FLOORCOVERINGS

PVC-free Floor Mat made of TPE

Our floor mat with top and bottom strips made of TPE is suitable for temperatures from -20 to +80 °C and therefore ideal for commercial indoor and outdoor use and in the sauna. UV resistant.

The elastic top strips provide a very pleasant walking comfort. The mat is rollable and slip-resistant. It is also emission-free and highly insulating. The material is both antibacterial and fungicidal for best hygiene.

This mat is manufactured in a resource-friendly way and is recyclable. It already consists of 30% recycled material. TPE is very sustainable, as it contains no heavy metals or toxins, for example.

The test according to DIN 51097 for the evaluation groups A+B+C has not yet been carried out, but should be soon.

Dimensions: up to 15 m long, width 80 cm or 100 cm. The mats can be easily cut to size with a cutter knife.

weight: approx. 4.5 kg/m².

never again

hot feet

FINNSA Sauna Mesh Floor Mat

This mat absorbs and reduces floor heat extremely. Thus, comfortable walking to the sauna benches is possible. The large-scale box structure creates a cooling cushion of air between the floor and feet.

The mat can be quickly removed and replaced when the cabin is cleaned. Not suitable for outdoor or wet areas.

Compatibility with our disinfectants and cleaners has been tested and confirmed in the laboratory.

- only 6 mm high and very light - only 2.5 kg/m²
- slip-resistant and hygienic
- easiest cleaning
- easy to cut

Supergrip Hygiene Mat "Hard PVC"

The top strips are completely dyed through and retain their color for years with regular cleaning. Hard PVC mats are slip-inhibitory and have an antibacterial and fungicidal effect. Not UV-resistant.

These hygienic mats are extremely wear-resistant and, with proper care, have a long service life.

Ideal for wet areas or saunas in bathing establishments and public facilities with heavy use. Can also be laid in pools, does not float!

Naturally resistant to bacteria, algae and fungi.

Fast water drainage on all sides due to the curved surface of the bars. Slip-inhibitory properties according to DIN 51097/GUV 26.17 - application area A+B.

Hygienic cleanliness by simply hosing down with water. Largely resistant to chemicals.

Easy to roll up and space-saving to store due to flexible bottom slats.

The structure promotes blood circulation and massages the soles of the feet. Safe and comfortable barefoot walking.

Please indicate desired color and size.

Cleaning and Care

Before cleaning the floor, always remove your floor covering and only lay it out again when the floor is completely dry. Some floor cleaners can attack the material.

Our floor coverings can also be cleaned with high-pressure cleaners or mild cleaners. Allow to dry afterwards. If aggressive cleaners are used, rinse the mat with plenty of water.

Sunset Deck Chair

This Deck Chair is made of a unique alloy of resin, glass fibre and aluminium particles. This material composition makes it extremely resistant. It can withstand a load of up to 180 kg.

The fabric, which is protected against UV radiation, has been treated with bacteria-repellent products. There are extra comfort zones at the foot and head ends. Changeable cover.

- high-quality, shape-retaining textylene fabric
- 5-way adjustable backrest
- UV and weather resistant

Approx. dim.: L × W × H: 105 × 63 × 75 cm. Weight: 9.5 kg.

XXL Sauna Towel

light weight - great comfort

Extra large and handy sauna towel for demanding sauna use. With "Sauna" lettering at the top and bottom.

Even tall people can rest their head and feet ON the towel. Due to its small volume, it fits into any sauna bag without weighing it down unnecessarily.

Approx. dimensions: 220 cm × 75 cm.

100 % cotton, 470 g/m², fabric weight approx. 780 g. Washable at 60 °C, suitable for tumble dryer.

①  natural Item-No. 7572

②  anthracite Item-No. 7573

XL Sauna Towel

in comfort size

This large towel is particularly soft and cozy thanks to its heavy quality (500g/m²) and the high floor.

With "Sauna" lettering at the bottom. Practical hangers at the top and bottom of the towel.

Approx. dimensions: 200 cm × 80 cm.

100 % cotton, 450 g/m², fabric weight approx. 750 g. Washable at 60 °C, suitable for tumble dryer.

Original Finnish Sauna Bath Towel moose look

The high water absorption capacity combined with the somewhat rough peeling surface is appreciated by sauna connoisseurs.

Material: 55 % linen, 30 % cotton. 580 g/m² quality. Washable at 60 °C, not suitable for tumble dryer.

① + approx. 75 × 200 cm

Item-No. 2215-2

Original Finnish Sauna Seat Towel moose look

Linen sauna seat towels are an essential part of Finnish sauna culture. The use of a seat towel promotes hygiene and shows consideration.

Material: 50 % linen, 50 % cotton. 300 g/m² quality. Washable at 60 °C.

② + approx. 45 × 160 cm

Item-No. 2252-2

Sauna Seat Towel "Sitz + Schwitz"

This towel is the perfect size to sit comfortably on in the sauna, but also to wear loosely around the waist.

Color dark blue-jeans with white embroidery "Sitz + Schwitz", with hanger on the upper side in the middle.

Material: 100 % cotton, 480 g/m², prewashed, Washable at 60 °C, suitable for tumble dryer.

③ + approx. 70 × 140 cm

Item-No. 7571

No chemicals are used in the production process, therefore linen textiles shrink about 7 - 10 % during the first wash.

Feel-Good

with a hood

Terry Bathrobe with hood

High-quality bathrobe for use in hotels and wellness facilities. The large hood protects against draughts. Two patch pockets offer enough space for all necessary utensils.

Double-stitched side seams provide more stability and prevent the belt loops from tearing. At the same time, the seams on the inside are flatter and therefore more comfortable against the skin.

Material: 100 % cotton, 400 g/m² quality,
Washable at 60 °C and suitable for tumble dryer.

Extra long - generous cut!

Developed for you
by sauna
Masters

High quality and handmade wellness and sauna clothing from South Tyrol.

With our new "Steinböckl" collection, we dare to set new accents in the wellness, SPA and sauna area, in line with the trend of the times.

In order not to have to use a simple bath towel as a substitute for a robe, we create sarongs for the ladies and kilts for the men. We create our own collections to meet different preferences, taste and fashion.

The articles differ from others by revised, refined and sophisticated cuts, lovingly selected trims, buttons and designs. On principle, the products are light and take up little space.

These cotton garments are also suitable for use in sauna cabins in areas where sauna is not textile-free.

Discover the highest quality from the Sarntal.

Ondin light terry is characterized by the two different sides - smooth inside and terry outside. In addition, due to the very short loops, it does not pull threads so quickly.

It absorbs water well, but also dries quickly again and is very durable. Therefore, these garments are especially suitable to wear as work-wear in and after the sauna for infusion masters and mistresses.

Working ethically and sustainably is our motto.

On the following pages!

Quality by
sauna(V)isions

ONDIN Bathrobe Unitux for ladies and men

This garment is as lightweight as a throw or jacket and can be worn at best over a sarong or kilt. Takes up very little space and has the special properties of ONDIN light terry 100% cotton.

It is made of one piece with short very wide sleeves and a large sew-in at the back. A pocket is located on the right side and the front can be closed with a toggle closure.

Color: anthracite / gray

Approx. dimensions: length: 85 cm, perimeter: 140 cm
100 % cotton. Washable up to 40 °C. Do not bleach.

 **NEW** suitable for all sizes Item-No. 5360

ONDIN Poncho for ladies and men

A poncho is a very practical, sporty garment. This one reaches to the knees and has 2/3 sleeves. The hood makes the poncho look especially casual.

The poncho has a large belly pocket on the front and can be closed with the well-known toggle closure of the bathrobe Unitux.

Color: anthracite / gray

Approx. dimensions: Mini: 93 × 65 cm. Maxi: 110 × 78 cm.
100 % cotton. Washable up to 40 °C. Do not bleach.

ONDIN Men's Kilt Classic with pocket

Ideal for sauna guests as well as for sauna masters. Our Kilt Classic has two sew-ins on the hips for better shaping and attached ribbons for optimal regulation. When worn, ideally the useful pocket and fringe are on the right side of the body.

Color: anthracite / gray

Approx. dimensions: Mini: 50 × 135 cm. Maxi: 50 × 150 cm. 100 % cotton. Washable up to 60 °C. Do not bleach.

4  **NEW** Mini (XS/S/M) Item-No. 5372

5  **NEW** Maxi (L/XL/XXL) Item-No. 5373

sauna
Garments
by sauna(V)isions

ONDIN Ladies' Sarong Classic simple but sophisticated

The sarong has a buttonhole placket complete with button for optimal regulation and a strong elastic band at the back. In addition, there is a pocket in front and a hanger on the backside.

Two sew-ins on the sides give the garment more shape. Due to the cut, the sarong visually closes better in the front, which is especially advantageous when sitting down.

Attention: The belt item-no. 5375 is optional and must be ordered separately!

Color: anthracite / gray

Approx. dimensions: Mini: 75 × 140 cm. Maxi: 75 × 150 cm. 100 % cotton. Washable up to 60 °C. Do not bleach.

ONDIN Sauna Hat Magic felted, made from sheep wool

This sauna hat is a masterpiece of craftsmanship and is made from 100 % sheep's wool. It is "thermo-insulating" and self-cleaning.

Nevertheless, the sauna hats need good treatment, because quality always deserves a little mindfulness.

100 % sheep wool. Fixed price.

④ **NEW** felted Item-No. 5380

ONDIN Sauna Hat crocheted, made from sheep wool

Crocheted by hand from 100 % soft pure new sheep's wool, therefore very cuddly and snug.

This material is self-cleaning by nature. Nevertheless, you should air the hat after the sauna session.

100% pure new sheep wool. Fixed price.

Sauna control units

Sauna Control Unit Econ D2

Electronic control unit with 24h real and preselection clock. Control range between 30 and 115 °C. Safety temperature limiter 139 °C. Heating time limit in short-time mode 6 h, extendable to 12 h.

Switching load 9 kW, extendable with PCU. Digital display of time, preset time, temperature and remaining time. Including key lock/child lock. Temperature sensor and sensor cable (2 m) included in delivery.

Connection 400 V 3 N AC 50 Hz

Approx. dimensions: H × W × D: 22 × 25 × 6.7 cm

Item-No. 9340-5

Sauna Control Unit Econ D4

as above, but heating time limit is extendable to infinite.

Optional connection of an additional bench sensor possible. Prepared for remote control. Optionally with remote start module. Dimmable cabin light - 10 steps. Output for cabin fan, adjustable (3 steps).

Connection 400 V 3 N AC 50 Hz

Approx. dimensions: H × W × D: 22 × 25 × 6.7 cm

Item-No. 9340-7

Do you need replacement heating coils for your EOS sauna heater?
Just send an email to info@finnsa.de.

Switching load extensions

LSG 10

For extending the switching load by 10 kW. In combination with control units with 9 kW (10 kW). Suitable for sauna heaters wired in two circuits with up to 19 kW (20 kW) total output.

Approx. dimensions: H × W × D: 22 × 25.5 × 6.5 cm

Item-No. 9370-4

LSG 18

For extending the switching load to a total of max. 27 kW. In connection with control units with 9 kW switching capacity of the Econ series.

Only sauna heaters wired in two circuits (max. 9 kW + 18 kW) may be connected.

Approx. dimensions: H × W × D: 27 × 30 × 10 cm

Item-No. 9370-2

LSG 36

as above, but switching load can be extended to a total of max. 36 kW.

Only sauna heaters wired in two circuits (max. 2 × 18 kW) may be connected.

Approx. dimensions: H × W × D: 45 × 30 × 14.2 cm

The correct *Utilization* for a long runtime

What you need to consider with...

... sauna heaters

Keep the following in mind for the longest possible life of your sauna heater:

- Supply and exhaust air in the sauna cabin is imperative so that the air can circulate well
- Water should not get on the heating coil
- Use decalcified water for vaporiser systems with water hardness > 1
- When operating with vaporiser systems, the max. permissible temperature must be in relation to a certain air humidity

In the table below you will find the heating power required for your cabin size and the minimum power supply cross-section required.

... sauna stones

9 out of 10 heater or heating coil defects are due to sauna stones that have not been "maintained". In addition, old stones take on odours and thus falsify the scent of your sauna infusion - as do residues.

For all types of sauna stones, please note the following:

- Clean with water before use, then allow to dry well.
- Do not pour water on cold stones. The water settles into cracks and can cause the stone to burst when heated.
- Only carefully douse hot stones with warm water.
- Do not carry out experiments with alcohol or unsuitable liquids or solids.
- Reposition the stones from time to time and remove small stones and crumbs. Pile up the stones so that the air can circulate well.

Stones are a natural product - splintering cannot be ruled out due to extreme heating and cooling.

Sauna Soapstones from Finland

Soapstone stores an enormous amount of heat. You thus achieve a very pleasant climate as well as gentle, very even infusions.

Attention: Do not place soapstone directly next to the heating coils.

①  15 kg carton Item-No. 0860

Original Ceramic Sauna Stones "Kerkes"

The sauna stones are burned at approx. 1300 °C. This makes them extremely resistant and ideal for the sauna. They store the heat extremely well.

The spheres are particularly suitable for wooden sauna heaters. The tetras are ideal for electric heaters. Use the larger Kerkes in the lower area and a layer of small Kerkes on top.

Generally 10 kg in a package.

②  tetras, ø 60 mm, approx. 35 pieces Item-No. 1220

③  tetras, ø 80 mm, approx. 20 pieces Item-No. 1221

④  spheres, ø 50 mm, approx. 60 pieces Item-No. 1225

⑤  spheres, ø 60 mm, approx. 35 pieces Item-No. 1226

A large proportion of Finnish sauna baths use Kerkes stones.

Let your Creativity run free...

Continuous Colored Light Strips for all types of saunas and infrared cabins

- direct and indirect lighting in the visible area
- can be recessed flush with the surface
- can be combined with all other collaxx products
- connection via DC socket
- incl. silicone connection cable
- suitable for temperatures up to 125 °C
- smooth color transitions, dimmable

Approx. dimensions: 1.5 × 1.5 cm

Mounting with Retaining Clips

Easy to mount using the transparent retaining clips supplied.

Approx. dimensions: W × H: 1.9 × 1.75 cm.

Connection

Recommended connection with DC socket.

DC socket

retaining clip

Please note when placing your order:

- radio / wall-mounted remote control (see right) must be ordered separately (not included in the price)
- it is possible to connect several light strips. To do this, specify "light strip with DC socket on both sides" and order the required silicone connecting cable (see right) separately (not included in the price)
- with a DC socket on both sides, the light strip is 1 cm longer
- please also specify the desired length of the silicone connection cable (already included in the price)

Ideal: Send us a dimensioned sketch of your sauna cabin via e-mail to info@finnsa.de. We will put it together for you and make you a non-binding offer.

Silicone Connection Cable for Light Strips

These silicone connection cables are suitable for use inside the sauna cabin and especially for commercial saunas.

- 21** 3 m, incl. DC adapter Item-No. **8350**
- 22** 10 m, incl. DC adapter Item-No. **8351**
- 23** 0.35 m Item-No. **8352**

Why is the remote control battery not replaceable?

- users would have to reliably perform a reset
- seal can only be inserted with special device
- housing not designed for frequent opening/closing
- moisture can corrode battery holder
- necessary battery is not available in retail

However, if everything has been done correctly, the battery will last a sauna lifetime anyway. The energy lasts for well over 15 years and beyond a million key-strokes.

A normal battery holder would encourage many to insert standard button cells. However, these are only suitable up to 70 °C. Acid could leak out or they could explode.

General Terms and Conditions of Sale

of the company Finnsa GmbH, D-36304 Alsfeld

1. General

Unless otherwise agreed, the following terms and conditions shall apply exclusively to all purchase contracts and our offers. The customer's general terms and conditions shall not apply, even if we do not expressly object to them.

We reserve the right to make technical changes, dimensions and optical deviations insofar as these are not disadvantageous and reasonable for the customer. Color reproductions are approximate values. Errors and all rights reserved.

In the case of individual or customised products, special colors/sizes, imprinted names, etc., goods cannot be returned. Quantity differences of up to +/- 10 % may occur in the case of custom-made products.

No liability can be accepted for any printing errors. Product photos can deviate from the original product, labels of our products can change at any time. Our products or their labels may also be updated or revised at any time. Batteries are generally not included in the scope of delivery.

2. Orders

Shall be deemed accepted by us when confirmed in writing. Offers are always subject to change and valid for 6 weeks from the date of the offer, unless otherwise stated.

3. Prices

Unless otherwise agreed in writing, prices are ex warehouse Alsfeld (Hesse, Germany) or factory warehouse, plus packaging and transport costs, plus statutory VAT. Transport insurance is not included in the price. Unless otherwise agreed in writing, payment shall be made at our discretion: Within 14 days of the invoice date, net. Direct debit immediately upon invoicing minus 2% discount. We reserve the right to process orders by prepayment if necessary. In case of direct shipment to your customers plus 3,50 € handling fee. The prices of the current price list valid on the day of invoicing apply.

4. Retention of title

The delivered goods remain our property until full payment of all claims arising from the business relationship, including deposits of bank collections, and may not be resold until then.

5. Delivery times

These are always non-binding. Operational disruptions at our company, our suppliers and carriers, or special events of force majeure extend the stated delivery times by the time loss caused by the events. Partial deliveries in due time and quantity are permissible and can be invoiced separately.

6. Warranty

We provide a warranty on the delivered goods for one year from the date of invoice. The prerequisite is proper handling. Illuminants and wear parts are excluded from this warranty. A replacement will be provided for defects that occur within the warranty period and are due to material defects. Further claims will not be accepted.

7. Damages in transit

Will only be accepted by us under the conditions listed below: Inspect all consignments immediately on arrival for transport damage so that claims for compensation against third parties are secured. It is absolutely necessary to call in representatives of the transport company in good time to ascertain the damage. In the case of externally visible damage or loss, you must request that the damage be recorded and that a statement of the facts be handed over before accepting the goods. In the case of postal consignments, the damage must be certified in writing by the post office before damaged parcels etc. are accepted. In the case of damage which is not visible from the outside, i.e. which only becomes apparent when the goods are unpacked, the goods must be left in the condition in which they were found and the carrier must be requested to ascertain the damage without delay. Be sure to keep the packaging.

Please comply with the deadlines for requesting the carrier to assess the damage, as otherwise the carrier's liability will lapse and we will not be able to provide free replacement deliveries. The deadlines in Germany are: for postal consignments: 24 hours after receipt of the consignment, for rail

transport: 7 days after receipt of the consignment, for motor vehicle transport: 4 days after receipt of the consignment.

However, we strongly recommend that you notify us immediately. Damage claims must also be reported to us in writing within 7 days after acceptance of the goods.

8. Data storage

We would like to inform you that we will only store and process your data by computer as far as this is necessary for business purposes and within the framework of the current GDPR (European Data Protection Regulation). Questions and requests for information on the subject of data protection can be directed to us at any time.

9. General liability

Claims for damages of any kind against us are excluded, unless there is gross negligence or intent, or the breach of an essential contractual obligation.

10. Place of fulfilment

The place of fulfilment and jurisdiction for both parties shall always be Alsfeld (Hesse, Germany) and the courts having jurisdiction by way of instance. Alsfeld shall be deemed to be agreed as the local competent court, also for dunning proceedings, and binding for both parties.

As of November 2023

Data protection information according to Art. 13 GDPR

of the company Finnsa GmbH, D-36304 Alsfeld

This data protection information informs you about the processing of your data at Finnsa GmbH Alsfeld, Marburger Straße 35, 36304 Alsfeld. According to Art. 4 No. 1 GDPR, your data includes all information that relates or can be related to your person, in particular by means of assignment to an identifier such as a name or to an organizational or personnel number with which your person can be identified.

Personal information and personal data

During your contractual relationship, Finnsa GmbH collects and processes information (both in paper format and in digital form).

These data include:

- Master data (name, address)
- Contract data (type of contract, start/end of contract)
- Business contact and communication data
- Authorizations (access rights, access rights to IT systems and data processing procedures, log data on the use of communication and data processing systems, recordings from the video surveillance system)
- History data
- Bank details

Purposes of collection and processing

Finnsa GmbH collects, processes and uses your personal data exclusively for the purposes of the contractual relationship and for business purposes permitted within the scope of our business activities. These include:

- Internal administrative and organizational purposes
- Ensuring the security and protection of processing procedures and data from unauthorized access, falsification and use
- Protect the company's facilities, equipment, and assets from theft and other damage

Your data will only be processed for purposes other than those stated if such processing is compatible with the purposes of the employment relationship. We will inform you about such processing before further processing of your data and, if necessary, obtain your consent.

Your data protection rights

Your data protection rights are regulated in Chapter III (Art. 12 ff.) of the European Data Protection Regulation (GDPR). According to these regulations, you have a right to information about the personal data stored about you, about the purposes of processing, about any transfers to other bodies and about the duration of storage.

To exercise your right to information, you can also obtain extracts or copies. If data is incorrect or no longer required for the purposes for which it was collected, you may request that it be corrected, deleted or restricted from processing. Where provided for in the processing procedures, you may also inspect your data yourself and correct it if necessary.

If your particular personal situation gives rise to reasons against the processing of your personal data, you may object to processing insofar as the processing is based on a legitimate interest. In such a case, we will only process your data if there are special compelling interests for this.

If you have any questions about your rights and how to exercise them, please contact your HR department or the company data protection officer.

Legal basis for the processing of your personal data

The legal basis for the processing of your personal data for purposes of the contractual relationship is Art. 6 para. 1 lit. b) and lit. c) GDPR.

Data is only collected and processed for this purpose if this is required by law or in accordance with the employment contract. Insofar as further data may not be directly required for the implementation of the employment relationship, the processing is based on a legitimate interest of the company pursuant to Art. 6 (1) lit. f) GDPR.

A legitimate interest may arise, for example, from internal organizational and administrative purposes, to protect the company's facilities, equipment and assets, as well as data processing equipment and data. Processing of your data is permissible here if the protection of your interests, fundamental rights and freedoms does not prevail.

In individual cases, we may also obtain your consent to the processing or transmission of your data. In these cases, your consent is voluntary and can be revoked by you for the future at any time, unless otherwise agreed. You will not suffer any disadvantages from a non-consent or a possible later revocation of a consent.

Transmission of your personal information

Your personal data will only be transferred or disclosed to external bodies insofar as this is required by a legal norm or necessary for the fulfillment of the employment contract concluded with you (e.g. to tax and social security authorities, banks, auditors), or on the part of Finnsa GmbH or an external body a legitimate interest in the above sense exists and the

transfer is permissible according to the data protection regulations.

Your personal data and information may also be disclosed by Finnsa GmbH to agents and contractors who provide a service for us, including insurers and consultants, for legitimate purposes, to the extent that permission to do so exists in individual cases in accordance with data protection regulations. If your consent or separate notification is required for this, we will obtain your consent beforehand or inform you in good time beforehand. Your personal data may also be transferred to service companies for the performance of data processing tasks, e.g. for the performance of automated personnel data processing or payroll accounting. In doing so, we will observe the data protection regulations.

Certain personnel administration and personnel management tasks are performed centrally by Finnsa GmbH. A data transfer or disclosure of your data will only take place to the extent necessary for this purpose and in compliance with the relevant data protection regulations. As far as a data transfer to third countries or a disclosure to bodies in third countries takes place, the additional requirements for this are observed. In accordance with these regulations, a contract required by the GDPR has been concluded between Finnsa GmbH and the processing entity in accordance with the EU standard contractual clauses.

Entity responsible for the processing of your personal data

The competent and responsible body for the collection, processing and use of your personal data is Finnsa GmbH in the Federal Republic of Germany, unless otherwise contractually agreed.

The personnel data is stored and processed in personnel data processing systems. The technical installation is designed in such a way that only a narrowly defined group of specially authorized persons is authorized to access the data and that any other access to or knowledge of the data is precluded in accordance with the state of the art.

Complaints about the processing of your personal data

If you have concerns or a question about the processing of your personal data and information, you can contact Finnsa GmbH. You can also contact the company data protection officer or the data protection supervisory authority using the contact details below.

Data Protection Office Rößner
Karl-Bröger-Str. 10, D-36304 Alsfeld
dsb@ra-roessner-merle.de

The Hessian Commissioner for Data Protection and Freedom of Information
P.O. Box 3163, D-65021 Wiesbaden
Phone: +49 611 1408 - 0, Fax: +49 611 1408 - 900 / 901

Duration of storage

Your personal data will only be stored as long as knowledge of the data is necessary for the purposes of the contractual relationship or the purposes for which it was collected, or as long as legal or contractual retention requirements exist.

Different statutory retention periods result from tax law, labor law and social security law regulations and extend up to ten years for documents and receipts relevant under tax law. After you leave our company, we will retain your personnel file for a period of 10 years.

As of November 2023

Finnsa - unique across Europe

Marburger Str. 35 | D-36304 Alsfeld

Business hours:
Mo.-Thu. 7.30 am to 4.15 pm

Tel.: +49 (0) 66 31-9688-0
Fax: +49 (0) 66 31-9688-96

www.finnsa.de | info@finnsa.de

Orders from abroad

Orders from other European countries are no problem. FINNSA is always up to date with the required customs information.

Important for EU customers

Please be sure to indicate your VAT identification number (e.g. BTW-No./P.IVA/OB-No.). Only then can the delivery be made without charging German VAT.

Returns

Please stamp returns and contact us by phone beforehand. We will gladly send you a return note.

Catalog download

You can download a version without prices at any time from our website www.finnsa.de.

Newsletter

Sign up for our Finnsa newsletter at www.finnsa.de/newsletter and never miss a thing.

Dispatch

We generally determine the most favorable dispatch route and charge only the freight and packaging costs incurred. DHL is our standard delivery partner.

We cannot promise a guaranteed next business day delivery for stock items. However, our employees will do everything to fulfill your wishes.

Orders

When ordering, please provide the following information:

- Billing and delivery address
- FINNSA customer number
- Item numbers and quantities
- Item description
- if necessary: sizes, colors, etc.

Online Shop

Browse our online shop for commercial customers in the European Union outside of our regular business hours at www.finnsa.de/shop.

Register now by filling out the form in the webshop. You will receive your access data within 1-2 business days by e-mail.

These offers are only valid for industry, trade, craft and commerce. The buyer confirms the use of the goods in the context of his commercial activity. Euro prices plus VAT, ex warehouse.
