# M E A S U R I N G D E V I C E S

**Info**

It is difficult to specify an exact runtime for sand timers as sand is a natural product. Tolerances of up to 2 minutes are possible.

If several grains get stuck, gently tap the glass or briefly turn the hourglass upside down.

For all of our hourglasses, the glass is secured with a heat-resistant special adhesive, reducing the risk of breakage!

A slight film may form on the inside of the glass cylinder. This is a natural occurrence due to static charge.

**Sauna Hourglass Special, 15 min.**

Made from solid beech wood.

- 1 Sand colour: green Item-No. 0650
- 2 Sand colour: red Item-No. 0651
- 3 Sand colour: blue Item-No. 0652
- 4 Sand colour: white Item-No. 0653

**Sauna Hourglass Special, 30 min.**

as above, but with 30 min. runtime. Ideal for infrared cabins and tepidaria.

- 5 Sand colour: red Item-No. 0660

**Your Logo?**

For orders of 50 pieces or more, our special hourglasses can be customised with your logo and the sand colour of your choice.

## Steam Room Climate Gauge

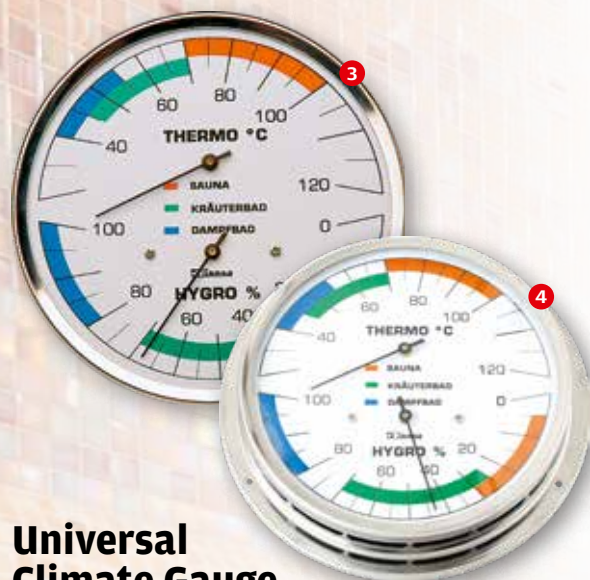

Highly readable instrument with a stainless steel, corrosion-resistant case.

Measurement range: Hygrometer 0-100% rel. humidity, Thermometer 30-120°C.

**1** 13 cm scale Item-No. 4130

as above, but with a surrounding flange.

**2** 13 cm scale Item-No. 4130-F

## Universal Climate Gauge

Precision Instrument for Sauna, Herbal Bath, and Steam Room. Stainless Steel Housing. All measurement ranges are color-coded for each type of bath.

**3** 13 cm scale Item-No. 4150

as above, but with a surrounding flange.

**4** 13 cm scale Item-No. 4150-F

## Electronic Hygro-Thermometer

Measuring Device with Digital LED Display and Separate Sensor Housing. Suitable for both indoor and outdoor mounting. Concealed mounting. Protection class IP 24.

Measuring ranges: Temperature 0-125 °C. Relative humidity 0-60 %. Includes plug-in power supply and 3 m heat-resistant cable.

Dim. approx.: L×H×D: 22.5 × 10.5 × 6 cm, Digit height 2.5 cm.

**5** Item-No. 4160

### Info

Install all measuring instruments at head height on the upper sauna bench for the most accurate results.

All instruments can be adjusted with a screwdriver.
