## PVC-free Floor Mat Made from TPE

Our floor mat with top and bottom strips made from TPE is suitable for temperatures ranging from -20°C to +80°C, making it ideal for commercial use both indoors and outdoors, including in saunas. It is UV-resistant.

The elastic top strips offer a very comfortable walking experience. The mat is rollable, slip-resistant, emission-free, and highly insulating. The material is both antibacterial and fungicidal, ensuring optimal hygiene.

This mat is produced with environmental sustainability in mind and is recyclable. It already contains 30% recycled material. TPE is highly sustainable as it does not contain heavy metals or harmful substances.

**The mat has not yet been tested according to DIN 51097 for rating groups A+B+C, but it is planned for the future.**

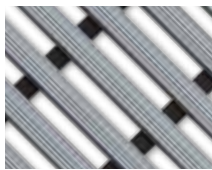

**Dimensions:** up to 15 m in length, width 80 cm or 100 cm. **The mats can be easily cut to size with a utility knife.**

**Weight:** approximately 4.5 kg/m<sup>2</sup>.

## Supergrip Hygiene Mat "Hard PVC"

The top bars are fully coloured throughout and retain their colour for years with regular cleaning. Hard PVC mats are slip-resistant and have antibacterial and fungicidal properties. They are not UV-resistant.

These hygiene mats are extremely wear-resistant and, with proper care, have a long lifespan.

Ideal for wet areas or saunas in swimming pools and public facilities with heavy use. Also suitable for installation in pools, as they do not float!

-  Naturally resistant to bacteria, algae, and fungi.
-  Rapid, all-round water drainage due to the curved surface of the bars. Slip-resistant properties according to DIN 51097/GUV 26.17 - Application areas A+B.
-  Hygienic cleanliness through simple rinsing with water. Mostly resistant to chemicals.
-  Easy to roll up and space-saving storage thanks to flexible base strips.
-  The structure promotes circulation and massages the soles of your feet. Walk safely and comfortably barefoot.

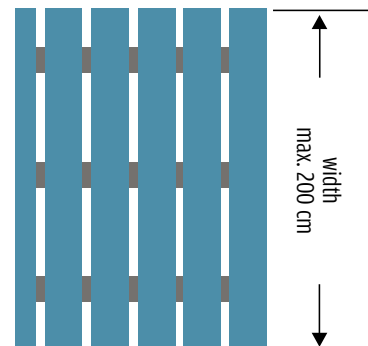

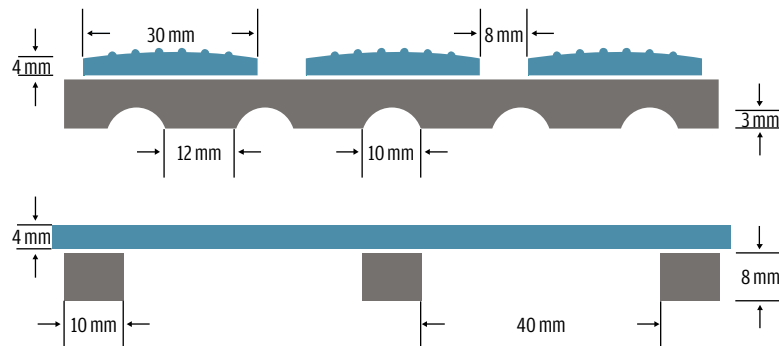

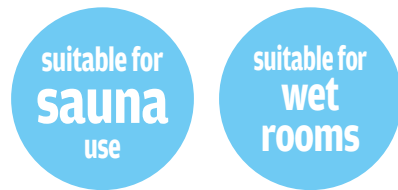

Please specify desired colour and size.

### **Cleaning and Maintenance**

Always remove your flooring before cleaning the surface beneath, and only put it back once the floor is completely dry. Some floor cleaners may damage the material.

Our floorings can be cleaned using high-pressure cleaners or mild cleaning agents. Allow them to dry afterwards. If using aggressive cleaners, rinse the mat thoroughly with plenty of water.
